

Active Mount – VIBRAMOUNT®

Active Performance:

- Achieves cancellation using patented control up to 750 Hz
- Cancellation over up to 20 engine orders
- Active & Passive elements work synchronously
- Intelligently adapts to changes in physical vehicle conditions
- Enables enhancement of vehicle “soundtrack” through emphasis of selected engine orders

Physical Summary:

- Height 128mm
- Max Power Required 80 Watts
- Weight 2.3 kg
- Output of 120 N

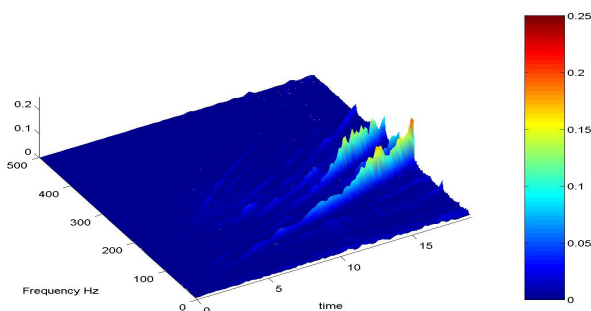

Passive Performance:

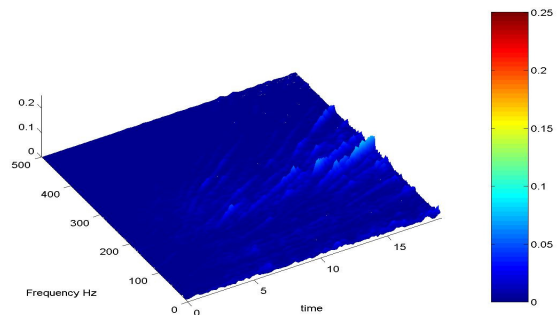

- Identical performance to hydraulic mount

Chassis Vibration Measurements:

Mount Off

Mount On : Isolation Mode

Mount On : Isolation with 4th Order enhanced to improve “soundtrack”
