

## Semi-Active Gearbox Mount

Two state, solenoid-switching, hydraulic gearbox mount providing improved idle refinement with no ride compromise.

**Static Stiffness Range:**  
150 – 250 N/mm

**Loss Angle tuning range:**  
5 – 15Hz

**Application:**  
Petrol or Diesel-engined vehicles

**Dynamic Stiffness @ 40Hz:**  
Idle up to 50% less than Ride
